Summary

MCA Computer Science graduate with a strong foundation in Java, Python, SQL, HTML, CSS, JavaScript, JDBC, Servlets, and OOPS concepts. Hands-on experience in developing applications using Java, SQL, OpenCV, and MediaPipe through academic projects. Familiar with AI-assisted tools like ChatGPT, Cursor AI, Cloud AI platforms, and Antigravity AI to enhance coding and productivity. A quick learner and motivated fresher seeking an opportunity to apply technical skills, grow professionally, and contribute to innovative software solutions.

Technical Skills

Frontend Technologies: HTML5, CSS3, JavaScript

Backend Technologies: Core Java, Advanced Java (JDBC, Servlets), Spring Framework, Spring Boot

Database Technologies: SQL, MySQL, Database Management System (DBMS), SQL Queries, Joins

Programming Languages: Java, JavaScript

API & Web Technologies: JDBC, REST APIs, JSON

Development Concepts: Object-Oriented Programming (OOPS), Collections Framework, Exception Handling, Multithreading

Projects

Media Player Controller Using Hand Gestures | *Python, OpenCV, MediaPipe, PyAutoGUI*

- Developed an AI-based **Python** application that enables users to control media operations using real-time hand gestures captured through a webcam.
- Implemented **Computer Vision** techniques using **OpenCV** for real-time image processing, frame detection, and gesture recognition.
- Integrated **MediaPipe Hand Tracking** to detect hand landmarks and identify gestures for play, pause, volume control, and navigation.
- Used **PyAutoGUI** to automate keyboard and system-level controls for seamless interaction with media applications.
- Improved user experience by developing a touchless control system with optimized real-time gesture detection and video processing.

Employee Management System (EMS) | *Java, HTML5, CSS3, SQL, JDBC, Servlets*

- Developed a web-based **Employee Management System** using **Java Servlets, JDBC, HTML5, and CSS3** for efficient employee data management.
- Implemented modules for employee registration, employee details management, salary management, payroll tracking, and attendance records.
- Designed and managed database operations using **SQL/MySQL** for storing, retrieving, updating, and deleting employee information.
- Established database connectivity using **JDBC** and implemented **CRUD operations** for effective data handling.
- Developed server-side business logic using **Java Servlets** to process requests, manage workflows, and interact with the database.
- Created a user-friendly interface using **HTML5 and CSS3** to improve usability and employee data accessibility.

Education

Master of Computer Applications (MCA) — 79%

Dr. Lankapalli Bullayya College (Affiliated to Andhra University)

2023

Andhra Pradesh, India
